

For Immediate Release:

IMS Buhrke-Olson Expands Facility in Monterrey, Mexico

Expansion to add manufacturing capabilities, logistics and R&D capabilities

Arlington Heights, IL (February 14, 2011) – IMS Buhrke-Olson announced a major expansion of its manufacturing facility in Monterrey, N.L., Mexico. The expansion will add manufacturing capabilities and 100,000 square feet of building space to the existing site necessary to expand manufacturing, logistics and R&D activities supporting the growing base of business at the facility. The expansion to the facility which was originally opened in 2006 will be completed in May 2011 and is expected to result in a significant increase in employment at the site in 2011 and 2012.
